Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is U.S. Patent No. French Patent No. FR 274962 to Ittah.

Ittah discloses a payment card for use on an electronic network. The payment card comprises a unit of sub-totals whose sum constitutes the total amount. Each sub-total is visible and is associated with a box corresponding to a multi-digit code that is concealed prior to its usage. During a transaction, the hidden codes are revealed by scratching the masked area and are transmitted to a processing center over a communications network. Ittah taken either individually or in combination with other prior art of record fails to teach or suggest revealing a unique multi-digit code for each digit of the selected monetary amount by removing the masking device in the representative series of 10 boxes that corresponds to the value of the digit of the selected monetary amount in combination with a process for payment of a selected monetary amount by a payer with a payment card having a series of boxes designating the type of currency of payment and a multiplicity of series of 10 boxes numbered from 0 to 9, each of the series of 10 boxes representing a digit of the selected monetary amount or a digit of greater magnitude than the selected monetary amount as recited in independent claim 1, an electronic card having a series of boxes designating the type of currency of payment and a multiplicity of series of 10 boxes numbered from 0 to 9, said series corresponding to base units, tens, hundreds, thousands, tens of thousands, tenths and hundredths as recited in independent claim 6, a support having a series of boxes designating the type of currency of payment and a multiplicity of a series of 10 boxes numbered from 0 to 9, said series corresponding to base units and multiples thereof of

undefined payment value, selected boxes being removable to reveal a unique code corresponding to each box as recited in independent claims 7 and 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- French Patent No. 2739322 to Ittah discloses a payment card comprising masked boxes for Internet purchases.
- "Implications for Central Banks of the Development of Electronic Money" discusses the key features of electronic money and policy issues.
